School Management System Features

- **Easiest ERP to Learn and Use:** We understand that technology is not everyone's best friend, hence our software has been so designed that it is very easy to learn and use by all involved.

- **Web-based:** Our software is completely web-based so it can be accessed anywhere, anytime with an active internet connection.

- **Multi-User Functionality:** Each module of our school management software comes with different features, hence multiple users in a single module can use and access data without any trials and tribulations.

- **SMS and Email Integration:** One of the best things about our software is that it keeps parents updated about their ward's progress and performance and with email and SMS integration, they can be informed about attendance, examinations, important events, homework, and reports.

- **Empowers your Teachers & IT department:** Being a comprehensive tool, our school management system gives teachers the power to manage and save important records, eliminating the need of doing everything with pen and paper. This saves a lot of time which can be used to perform other important operations.
